## CLASS DESCRIPTIONS

**Barre Fitness\*:** 45 minutes of strength and toning using dance inspired positions, moves and a barre ballet for balance. This full body conditioning class will lift the heart rate and your mood with exercises set to fun music in a supportive and high-energy environment.

**Fusion Hot 90\*:** Begin this 90-minute class (with the option to leave at 60) is designed to work the whole body; muscles, joints, glands and internal organs. The perfect mixture of strength and flexibility training takes your functional fitness to the highest level. Dynamic health benefits will astound and empower you. A series of held postures to build strength, a flow sequence that will work your heart, and a core and flexibility section create complete harmony through your entire body. 100 plus degrees at 40-50% humidity will heat the body inside and outside to flexibility, release toxins, increase caloric burn and improve cardiovascular function for a total mind and body experience. ***Not recommended during pregnancy. Please consult your physician.***

**Fusion Hot 75\*:** This practice uses the same sequences as Fusion 90 with the exception of 1 round (rather than 2) of the standing strength postures. You will flow through the same vinyasa sequence, enjoy 25 minute of core and flexibility training and end with a savasana. ***Not recommended during pregnancy. Please consult your physician.***

**Fusion Hot 60\*:** This practice utilizes the same sequences from Fusion Hot 90 with the exception of 1 round (rather than 2) of standing strength postures and includes the fully vinyasa flow as well as 10 minutes for core, stretch and a short savasana. ***Not recommended during pregnancy. Please consult your physician.***

**Gentle Yoga\*:** Begin with full yogic breathing followed by various stretching and warm-up postures to develop flexibility and turn one's attention inward. Progress through sun salutations in a slow and methodical manner to synchronize breath with movement and create heat in the body. Join with spiral twists, shoulder stand and a final posture before going into relaxation pose with guided meditation. Appropriate for all levels of experience and practice. The room will be heated to 85 degrees with radiant heat only to create a safe and gentle environment for strength and flexibility. Class length is 60 minutes.

**Hot Barre\*:** This barre inspired workout is one of the fastest, most effective ways to burn calories and get toned! Yes, Hot Barre is centered around a ballet barre and inspired by the workout routine created by ballet legend Lotte Berk, but the barre is simply there to provide stability, balance, and support as you move through exercises that target the core, glutes, arms and legs. No dance experience necessary, the only thing you need to know are these three numbers: 95 degrees, 45 minutes, 800 calories! ***Not recommended during pregnancy. Please consult your physician.***

**Hot Pilates\*:** Strengthen your core like never before with progressive abdominal movements and back exercises that also include flexibility aspects. Incorporation of props and modifications will be utilized to assist in proper form. The heat will get your muscles warm and ready to work as we strengthen and lengthen for a strong core and better posture. Get ready for the 30-minute burn at 95 degrees! ***Not recommended during pregnancy. Please consult your physician.***

**KettleWorX:** This high-energy 45-minute routine utilizes the kettlebell. Choose your weight by color of kettle bell to custom fit this dynamic workout. Focus is on total body fat burning, toning and sculpting, and core strengthening.

**Kettle/TRX Circuit:** This functional and multi-planar workout uses specific exercises to teach important principles in regard to integrating the body more efficiently. This focus creates a workout that increases efficiency, reduces the risk of injury, and improves overall wellbeing.

**Pilates\*:** This class incorporates the classic Pilates style of core, stretch, and total body strength. The instructors will use personalized modification so that all levels receive a quality workout that fits their needs and goals. Props such as weighted balls, magic circles, foam rollers, or Bosu balls may be utilized.
